ABOUT SAFEPLAY

SAFEPLAY provides the best Digital Products Display Security Solution. With the protection of SAFEPLAY, consumers can play with new digital products freely while the retailers can improve the turnover safely.

SAFEPLAY not only improve the enjoyment of customer experience to increase the consumers' purchase intention; but also offer the highest protection of merchandises and rapidly reduce the retailers' shoplifting loss.

SAFEPLAY is owned by ONTIME, and it keeps innovation based on rich service experiences & customer feedback to meet the developing marketing demand.

Hi-Tech System

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White or Black plastic color
- * 5v and 12v Charging functions available
- * Wireless LAN network(SP9306)
- * 4.3" wide screen
- * Multi-ways of showing the information on the screen, video advertisement available
- * Data collection for customer experience
- * Blue and red LED indicator
- * Operation by Smartphone, PC and remote controller
- * 100Db alarm volume
- * Size: 20cm width x 14cm height

SP9306

Features:

- * Controls upto 200sets HT0002
- * Transfers the wireless intercommunication between the HT0002 and control system

Standard Fittings:

- * One pedestal with sensor and screen
- * One micro USB charging cable
- * One CD including the App for Smartphone and software for PC
- * One power supply
- * Enhanced external antenna(SP9701)

Optional Fitting:

- * Other charging cables
- * Remote controller

Standalone Display

Standard Series

SP2101

pedestal with sensor

with charging cable only

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White or black plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 93x65x164mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

with charging cable & secondary trigger sensor

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2102

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White or black plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 93x65x114mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2103

pedestal with sensor

with charging cable only

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White or black plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 600mA
- * 100Db alarm volume
- * Size: 93x65x170mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

with charging cable & secondary trigger sensor

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2104

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White or black plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 600mA
- * 100Db alarm volume
- * Size: 93x65x120mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2105

pedestal with sensor

with charging cable only

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 80x80x106mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

with charging cable & secondary trigger sensor

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2106

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 65x50x150mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2107

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 65x50x125mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2108

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 65x50x76mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2111

pedestal with sensor

with charging cable only

with charging cable & secondary trigger sensor

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Cellphone charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 60 Dia'x78mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * Secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

pedestal with sensor

camer display protection

with secondary trigger sensor

Features:

- * Designed for protecting camera
- * Built-in rechargeable lithium battery
- * White plastic color
- * Secondary protection function available
- * 100Db alarm volume
- * Size: 93x65x150mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One fitting screw for camera
- * Secondary trigger sensor

Optional Fitting:

- * Remote control

SP2202

pedestal with sensor

camer display protection

Features:

- * Designed for protecting camera
- * Built-in rechargeable lithium battery
- * White plastic color
- * Secondary protection function available
- * 100Db alarm volume
- * Size: 93x65x100mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

with secondary trigger sensor

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One fitting screw for camera
- * Secondary trigger sensor

Optional Fitting:

- * Remote control

SP2301

Features:

- * Designed for protecting pad
- * Built-in rechargeable lithium battery
- * White plastic color
- * Charging & protection function available
- * Charging power 1500mA
- * 100Db alarm volume
- * Size: 100x100x40mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal
- * One power supply

Optional Fitting:

- * Remote control
- * SP4001 for iPad Air

Remark:

- * Android tablet can use original data cable
- * iPad 3 can use original data cable

Standalone Display

Mini Post Series

SP2401

pedestal with sensor

with secondary sensor

with secondary sensor & charging cable

Features:

- * Designed for protecting cellphone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Charging & secondary protection
- * Cellphone charging power 1500mA
- * 100Db alarm volume
- * Size: 55Dia'x50mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply
- * One micro USB charging cable
- * One secondary trigger sensor

Optional Fitting:

- * Remote control
- * Other charging cable

SP2402

pedestal with sensor

with secondary sensor

Features:

- * Designed for protecting dummy phone
- * Built-in rechargeable lithium battery
- * White plastic color
- * Secondary protection function
- * 100Db alarm volume
- * Size: 50Dia'x50mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with sensor
- * One power supply

Optional Fitting:

- * Remote control

SP2403

pedestal with USB armed cable

with USB armed cable

Features:

- * Designed for protecting laptop
- * Built-in rechargeable lithium battery
- * White plastic color
- * USB wire protection function available
- * 100Db alarm volume
- * Size: 50Dia'x33mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with USB armed cable, 150cm length
- * One power supply

Optional Fitting:

- * Remote control

SP2404

pedestal with secondary trigger sensor

with secondary trigger sensor

Features:

- * Designed for protecting electric accessories
- * Built-in rechargeable lithium battery
- * White plastic color
- * 100Db alarm volume
- * Size: 50Dia'x33mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with secondary trigger sensor, 130cm length
- * One power supply

Optional Fitting:

- * Remote control

SP2405

pedestal with armed cable

with armed cable

Features:

- * Designed for protecting electrical accessories
- * Built-in rechargeable lithium battery
- * White plastic color
- * 100Db alarm volume
- * Size: 50Dia'x33mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with armed cable, 150cm length
- * One power supply

Optional Fitting:

- * Remote control

SP2406

pedestal with armed cable

with armed cable

Features:

- * Designed for protecting headset
- * Built-in rechargeable lithium battery
- * White plastic color
- * 100Db alarm volume
- * Size: 50Dia'x33mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with armed cable, 150cm length
- * One power supply

Optional Fitting:

- * Remote control

SP2407

pedestal with flexible trigger sensor

with armed flexible trigger sensor

Features:

- * Designed for protecting accessories with cambered surface
- * Built-in rechargeable lithium battery
- * White plastic color
- * 100Db alarm volume
- * Size: 50Dia'x33mm
- * Remark: The alarm can be ONLY disarmed after 5 seconds

Standard Fittings:

- * One pedestal with flexible trigger sensor, 100cm length
- * One power supply

Optional Fitting:

- * Remote control

Controller & Sensor

Controller Series

SP3002

**Features:**

- * Two Ports
- * Built-in rechargeable lithium battery
- * Rechargeable lithium battery
- * Charging & protection function available
- * Charging power totally 2000mA for 2 ports
- * Led lightening indicator
- * 100Db alarm volume

Standard Fittings:

- * One controller
- * One power supply

Optional Fittings:

- * Remote control
- * Charging cable

SP3004

controller + SP4003 + acrylic stand

controller + SP9705 + USB cable + acrylic stand

Features:

- * Four Ports
- * Built-in rechargeable lithium battery
- * Rechargeable lithium battery
- * Charging & protection function available
- * Charging power 1000mA for each port
- * Alarm indicator
- * 100Db alarm volume

Standard Fittings:

- * One controller
- * One power supply

Optional Fittings:

- * Remote control
- * Charging cable SP4003
- * SP9705 converter + USB cable
- * Acrylic stand

SP3008

Features:

- * Eight Ports
- * Built-in rechargeable lithium battery
- * Rechargeable lithium battery
- * Charging & protection function available
- * Charging power 1000mA for each port
- * Alarm indicator
- * 100Db alarm volume

Standard Fittings:

- * One controller
- * One power supply

Optional Fittings:

- * Remote control
- * Charging cable SP4003
- * SP9705 converter + USB cable
- * Acrylic stand

Controller & Sensor

Sensor Series

SP4001

Features:

- * Integrated with mini sensor and iPhone5s charging cable
- * Work with SP3002, SP2301, max length 90cm
- * Work with SP3004, SP3008 by converter SP9705

Standard Fittings:

- * One cable sensor with integrated iPhone5s charging cable and secondary trigger sensor

Optional Fitting:

- * Acrylic stand SP9503 or SP9504

SP4002

Features:

- * Integrated with mini sensor and micro USB charging cable
- * Work with SP3002, SP2301, max length 160cm
- * Work with SP3004, SP3008 by converter SP9705

Standard Fittings:

- * One cable sensor with integrated micro USB charging cable and secondary trigger sensor

Optional Fitting:

- * Acrylic stand SP9503 or SP9504

**Features:**

- * Cable sensor
- * Work with main controller (SP3004, SP3008), max length 100cm

Standard Fittings:

- * One cable sensor

Optional Fitting:

- * Acrylic stand SP9501
- * Charging cable
- * Secondary trigger sensor

SP4005

Features:

- * Cable sensor with micro USB charging plug only
- * Work with SP3002, SP2301, max length 110cm
- * Work with SP3004, SP3008 by converter SP9705

Standard Fittings:

- * One cable sensor

Optional Fitting:

- * Acrylic stand SP9503 or SP9504

SP4006

Features:

- * Cable sensor with iPhone4s charging plug only
- * Work with SP3002, SP2301, max length 80cm
- * Work with SP3004, SP3008 by converter SP9705

Standard Fittings:

- * One cable sensor

Optional Fitting:

- * Acrylic stand SP9503 or SP9504

DS8001

Features:

- * Dimension: 286x97x108mm
- * Plastic Color: Black or Customized

Description:

This innovative display post is built with robust metal frame and reliable mechanical structure which can provide toughest protection for your portable PC without bringing any inconvenient shopping experience to your potential prospects!

DS8008

Features:

- * Unit Dimension: H65xW45mm
- * Length option: 6", 9", 12"
- * Plastic Color: Black, Grey or Customized

Description:

This display hook is specially designed for protecting all kinds of high-turn/moderate-risk merchandise hanging on the pegboards in supermarket and retail store. Its unique anti-sweep structure can discourage grab-and-run shoplifting while presenting your merchandises in a perfect elegance.

DT4004

Features:

- * Dimension: 21.7Dia'x58mm
- * Magnetic Force: Strong

DT4061

Features:

- * Dimension: 22.8Dia'x57.4mm
- * Magnetic Force: Strong
