

Application Guide - TAG

REQUIRED EQUIPMENT

EAS HARD TAG, CONE PLASTIC PIN, MAGNETIC DETACHER

DETACH THE PIN

A magnetic detacher is required to detach the pin from the hard tag.

1. Put the jutting part of the hard tag onto the center of the magnetic detacher, let the blue plastic part of the pin face yourself.

2. Use your finger to hold the plastic part of the pin, take the pin out from the hard tag.

HOW TO PROTECT THE COMMODITIES

One EAS hard tag and cone plastic pin for one commodity. Please make sure the hard tag and pin are separated.

1. Choose a part on the commodity, put the cone plastic pin across this part.

2. Use a hard tag, let the part which has a needle hole to face the pin.

3. Use the pin to insert the needle hole of the hard tag, till the tag and pin are completely closed.
